

DOLPHIN POOLS

EXCEL IN N OUT OF WATER

COMPANY'S PROFILE

➤ **Dolphin Pools are swimming pool builders with the necessary credentials to design and install a pool and/or spa of the highest standard which will give you many years of pleasure. In our swimming pool construction , you can find out more about our versatile building & Waterproofing techniques which have gained us an enviable reputation within the industry for successfully meeting demanding specifications. In addition, from 2003 we are part of RLSS (I) Rashtriya Life Saving Society India.**

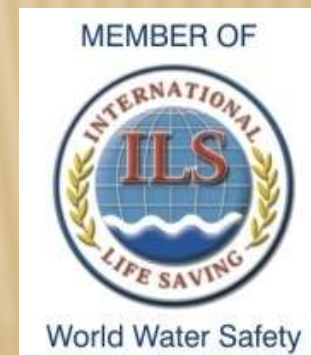

➤ **We can help make that dream come true. The dream of having your very own pool. We can build it for you in the garden, terrace or why not make excellent use of the space underneath the house? Your own pool would offer you a private and luxurious area for exercising, relaxing and entertaining. Not only can it be a healthy investment in your lifestyle, it could also be a smart investment in your property. In fact, you could really go for it and have your very own fitness complex at home since we also offer custom built spa, sauna and steam room installations. This type of health and leisure area in your own home is very much on trend. Ensuring that your pool and/or spa is looked after regularly in the correct way is the key to its longevity and your enjoyment. We pride ourselves in our position as the leading provider in Surrey of swimming pool servicing and maintenance, including spas and hot tubs.**

M.D. OF DOLPHIN POOLS

- The Managing Director of Dolphin Pools is a respected members of the industry for several decades and is a Vice President for West Zone of RLSS (I) which is affiliated to Royal Life Saving Society (Australia) which is recognized by International Life Saving (U.K).
- Our MD, Mr. Yusuf Chudesra, who himself is a water treatment and waterproofing expert. Starter & Certified Time keeper for G.M.A.A.A, Referee for Indian Triathlon Association, Certified Instructor for Lifeguards & Scuba Diving.

INNOVATION

➤ **Dolphin Pools** are fully aware that rapid change is taking place with ideas, technology and product which can be applied to swimming pools, spas and their environment. More importantly we understand the need to meet new challenges with energy conservation and low energy use for our works. A synergy needs to exist between the client, professional team and ourselves to fulfill these rapidly changing needs.

➤ In the Design and Construction section you will find details of our creative capabilities and resources. We associate with the most reputable and innovative companies in the industry from suppliers of the latest technology heating systems to manufacturers of the most stunning mosaic finishes. Together with our vast construction expertise, we can therefore offer you the most cost effective swimming pool and spa services of the highest standard in the business.

DESIGN AND CONSTRUCTION

- At the forefront of technical developments, we offer bespoke Swimming Pool and Spa Design services to meet the most challenging specifications and can include moats and water features. We are long established swimming pool builders offering warranties for our various works according to the definitions of the Swimming Pool.

- **WELCOME TO THE INDOOR SWIMMING POOL DESIGN AND CONSTRUCTION SPECIALISTS.**

- Dolphin Pools has offered bespoke pool building services and maintenance since 1990, including for outdoor swimming pools and spas. We construct and provide servicing of Swimming Pool & Spa for both private and commercial clients in India. We also have the capability for projects out of India and provide pool design consultancy.

CONSTRUCTION

□ Swimming Pool

- **Dolphin Pools has been building stunning pools and spas for a quarter of a century. We are the complete swimming pool contractor and can take care of every single aspect of your pool and spa construction project or work as a sub-contractor if required. We liaise closely with our clients and architects from the very beginning, discussing the whole concept to agree every detail and to give precise costing for every component. In our experience, this is a thoroughly rewarding approach which means we deliver exactly what is required at the agreed cost. In our you will find examples of the wide range of our work.**

**Daruwala Pool house
Lonavala**

With such vast expertise in bespoke swimming pool and spa design we have developed a unique versatility in construction methods allowing us to build in almost any style, any location. We have indeed gained a reputation for successfully completing unusual and difficult specifications. As in market, we are naturally at the forefront of any new materials, technical and environmental solutions including building pools . Underground swimming pools are now becoming the norm where space is at a premium, either constructed under the main property or garden with a link to the house. Dolphin Pools specialize in PSS (Permanent Shuttering System) and sprayed concrete (shotcrete).

WATER FEATURES

- **Moats and cascading water can be built to add several different elements to a property and garden and water features are enjoying a revival in architecture. Apart from providing stunning reflections of the house and surroundings, and the impression of calm and serenity, water can be used as an additional building material to minimalist style and offer a softening effect to bold and less colorful contemporary architecture. Water offers a separating element which can be useful when combining different architectural styles or functions of a property such as working area and living area. Or you may just want to achieve the sensation of living on an island...**
- **Technology for water circulation, filtration and chlorination has to be incorporated in the same way as for a swimming pool to avoid the feature turning green with algae. We offer expert construction that is essential for a stunning and successful end result.**
- ❑ ***Swimming Pool & Spa Repair and Refurbishment***
- **Working at the cutting edge of new materials, we can give your pool and spa a makeover to the latest styles and trends –**

WATER PROOFING SOLUTIONS.

- As waterproofing being the major part in constructing Swimming Pool ,Spa & Waterbody.
- Dolphin Pools has been certified applicator from Dr. Fixit & Laticrete having complete separate wing for water proofing of any kind.
- We been proud to associate our self with many swimming pool and terraces new and repair jobs.
- We take complete consultancy for Waterproofing solutions.
- We use all concise products which covers concrete admixtures, waterproofing systems, industrial grouts, anti-corrosive coatings, protective and decorative coatings, concrete repair products, industrial floorings, concrete surface treatments, tile adhesives and joint fillers, joint sealant and vibration pad and epoxy flooring systems.

NOTES FOR ARCHITECTS AND DESIGNER

- We offer either complete turnkey concrete swimming pool/spa construction of all types including shotcrete PSS - Permanent Shuttering System for both residential and commercial projects, or by working with main contractors for the provision of water flow, filtration, water treatment, lighting, air handling and internal finishes to water retaining concrete structures. We can also install ancillary services such as saunas and steam rooms for custom built leisure areas.
- We are delighted to share our expertise with architects and designers when possible and offer consultancy services when available.

ECO FRIENDLY SYSTEM

- **We specialize in Filtration Plant systems for pools of all types and can install systems for both indoor and outdoor pools. Since the filtration of water, its treatment and systems are complementary and require design to suit each individual pool installation, we source all equipment from known and leading manufacturers. The complete systems include all water flow pipe work from pool/spa to plant room. All poolside fittings are stainless steel and pipe work 10 bar rated uPVC / PVC pressure tested once fitted and again before covering over. Filters are deep bed giving highly polished/filtered water, pumps high technology silent run units avoiding transmission of low level noise through concrete structures. Water treatment plant is specifically ultra violet for primary and high precision free chlorine/PH for secondary disinfection. Control systems are designed and manufactured on a bespoke basis for each installation and can incorporate switching for underwater lighting and air temperature/ filter pump set back if pool covers are used. In other words, we will provide everything needed for a trouble free and highly efficient swimming pool/spa facility.**

ENVIRONMENTAL SOLUTION

➤ We understand that our work must have less impact on the environment and therefore it is now our intention to design more efficient control systems which use less energy for all swimming pool installations. We will be offering swimming pool pipe work insulation to outdoor swimming pools and swimming pool shell insulation wherever possible. Furthermore we will explore the use of sustainable resources including geo-thermal heat pumps.

SERVICING AND MAINTENANCE

- **We are confident in saying that we provide a 5 star swimming pool and spa maintenance and water treatment service in Maharashtra and Surrey. Since we also design, build and refurbish bespoke pools, we have the necessary credentials and experience to look after any type of pool and spa regardless of plant technology and size.**
- **We know you are very busy. And that you would like to use your pool whenever you wish without concerns about temperature, clarity, ph levels etc, etc. Since we want to make your life easier the perfect solution is to allow us to look after your pool ensuring it is in tip top condition at all times. As with a prestige car, your high quality pool needs professional and regular servicing.**
- **Over the years we have built strong and trusting relationships with our clients. We aim to provide you with the right service at the right time, allocating you your "own" engineer. It is comforting for you to know exactly who will be visiting your property and a dedicated engineer can get to know your pool meaning that when something out of the ordinary occurs with the water or plant, it can be fixed efficiently so that you can enjoy your pool again without delay.**
- **All our teams are train to the standards of the Swimming Pool according to the Indian Standards. Security, discretion and confidentiality are important parts of their job specification.**

Maintenance & Water Treatment

➤ We are Water Treatment experts and provide a first class Swimming pool Maintenance service, including Spring opening, Winter shutdown and one-off swimming pool cleaning as well as spa and hot tub maintenance.

Weekly, Fortnightly, Monthly or Holiday Maintenance Visits

➤ How often we service your pool and/or spa depends on if it is located indoors or outdoors, its size and how often it is used. "Little and often" is however the key to the longevity of your pool and spa as well as your enjoyment. Please call us for a survey during which we can discuss your special requirements. We will then design a tailor-made programme which can be adapted to suit your schedule and your pool's and spa's needs as necessary. We can also keep an eye on things when you are away on holiday.

Call-out Service and Emergency visits

➤ We know how worrying it can be when something suddenly goes wrong with your pool or spa. If you are intending to enjoy it for a party or planned fitness session then a leak or big temperature change could ruin the whole occasion. Depending on our engineers' schedules on any given day, we will endeavor to have a look at your pool or spa as soon as possible, and in most cases we will visit within 24 hours. Please contact us to see what we can do for you.

Spring Opening and Winter Shutdown and One-offs

➤ You do not have to be a regular customer of ours to request these services for your swimming pool, we are happy to assist when needed. In the main these procedures entail a thorough deep clean of the pool, addition of certain chemicals and inspection of the plant, but please give us a ring if you wish to find out exactly what is involved when we prepare a pool for the summer and close it for the colder months.

➤ As part of our service we keep our clients informed of the latest news of developments in pool products and technology, including any special or seasonal offers, via newsletters and other communication.

CHEMICALS AND ACCESSORIES

- We supply all the chemicals you require, such as chlorine granules, algaecide, "shock", ph increaser and ph & alkalinity reducer as well as test strips. You can place an order via telephone or email and we can deliver the products to your property depending on quantities and where you live.
- We provide secure billing ,if preferable to paper invoicing and cheque payments.
- We look forward to hearing from you on tel **022 26788730** or on **dp.mhatre1@gmail.com/dsa.dhananjay@gmail.com** to discuss your particular requirements and to arrange a survey and/or estimate.
- We supply Swimming pool Filters, Pumps, Circulation Accessories, Cleaning Accessories, Covers, Chemicals, Counter current swimming units, Automatic swimming pool cleaners, Ionization System , Ozonators, Auto Chlorination System and a wide range of other items you will need for your pool and spa.

PRODUCTS
